## LOCAL LIVE STOCK

Salient Points of the Week's Trade at East Liberty Yards.

CATTLE MARKET DEMORALIZED.

SHEEP AND LAMBS HOLD THEIR OWN

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, March 13, 1889. The run of cattle for the local trade this week has been from 80 to 85 loads, a slight advance on last week's run. More than onehalf were from Chicago. Quality was below the average. Very few steers were above 1,400 pounds in weight. The bulk of supplies were amon to good butcher stock from 1,100 to

1,300 pounds.

A leading drover accounts for the deterioration in quality thus: "Good grades that have been held over are being sent out to graze in the hope of better markets, and we are now receiving the dregs which will not pay to keep." One thing is certain, that no prime cattle showed up in this week's supplies. There were a few loads of stockers weighing from 700 to 800 in the receipts. The best grades and poor-est are conspicuously absent from markets this

Prices were 10 to 20c lower than last week. An olditimer, who has known the Liberty stock-yards from the start, said: "I have never seen the time when cattle were as low as they have been this week. Markets are thoroughly de-moralized. We thought last week that bottom had been reached. It seems there is still a lower deep, and this week beats all former records for poorness of markets."

Many Unsold.

At last accounts a half-dozen loads were in the hands of wholesale dealers unsold. Almost as many more were in retailers' hand in search of enstomers. The highest price realized was \$4 05. The same grade would have brought \$4 25 a week ago, and over \$6 00 last fall. Good butcher cattle, weighing 1,050 to 1,300 pounds, sold from \$3 15 to \$3 65. The above figures are for carload lots. An occasional steer, in a retail way, passed above the \$4 50 line. But this was the exception. Since the era of Chicago dressed beef, cattle dealers are forced to handle low grade cattle to compete for trade. The result has been that very few prime cattle are coming to market, and those that do come are brought on special order.

The supply of veal calves is now ample for all demands, and the drift of prices is downward. The range of prices is 5 to \$4c. For milk calves the range is \$3 to \$4c. Stockmen say they look for a glut of veal in a short time and advise shippers to hold back stock. Bulls sell fairly well at 2c to \$3/c. and have suffered least from demoralization of markets.

Sheep and Lambs.

Sheep and Lambs. The run varied little from last week. Total receipts on Monday were about 20 loads. Markets were slow at the beginning of the week on prices of last week. Reports from Eastern markets were not very encouraging. Since Monday the tone of markets has improved, and to-day stock is firmly held at strong last week's

The run has been light, and still prices have weakened since Monday. A decline of 10 to loc since yesterday is reported by a leading dealer. The range of prices to-day is \$5 to \$5 15. There is now scarcely any difference between prices of medium and heavy hogs. Since the season opened light weights have brought the best prices. Now heavy weights bring almost the same figures as light.

Pork packers say that prices of hogs have been relatively higher here this season than been relatively higher here this season than anywhere in the land. The late drop, it is claimed, brings prices to correspond with mar-kets in the West. E. M. McCali & Co. report the receipts of

It was again what might be termed a local market. There was less wheat offered, and parties who were sellers yesterday were credited with doing the buying to-day. Covering of short sales comprised the bulk of the trad-ing. This accounted for the firmness, assisted some by the impression that, after all, the principal bull traders may not have sold out their about 30 days. It will be the completed in about 30 days. After the urgent buyers had been filled up the demand slackened. A quieter feeling developed and a recession to slmost opening figures followed, and the close was steady at &c over yesterday's last sales. Trading was quite active in pork, but the feeling was unsettled and prices irregular. The demand was quite active early, and prices were advanced 20022 &c on the closing figures of yesterday. Later the feeling was weak, offerings free, and prices receded 3140 &00, with liberal trading at the decline. Toward the close the market was steadier, and prices improved 5910c, and closed rather quiet.

TERROR TO OLD-TIME PILOTS. Petroleum Takes a Big Tumble and Completely Demoralizes the Trade.

ELECTRIC AND PHILADELPHIA MOVE UP

The Wilkinsburg Natural Gas Company has placed most of its new stock, and work on the second well will begin in a few days. about 30 days. It will be thoroughly tested by experts. The result will determine the poses. The old well remains plugged, and nothing will be done with it until the value of the new one shall have been determined. The establishment of several important business enterprises in the borough depends upon the success of the new well.

In the early days of steamboat navigation Neville's Island was a terror to pilots, owing to natural obstructions and the variableness of the channel. The following directions for making the passage are taken from the Western Pilot of 1829. They are interesting to pilots of the present day: "Channel to the right. About three-fourths of a mile above the island keep to the right to avoid the bar at its head, and pass pretty close to Baldwin's mill dam, and, when past it, close in to the right shore below. Then turn short across for the island and keep near the shore until you approach a small sandy island, when you must keep to the right and pass between the latter and Lowry's rock, which lies on the right, opposite. A DROP IN OIL. An Exciting Day at the Oil E Operators Demoralized There were lively times at the Oil yesterday, at times almost reaching

90%c, with a weak feeling, caused, in part, by the report of McCune No. 6, on the Knox farm, Taylorstown, doing from 50 to 60 barrels an hour, but mainly by heavy selling and numerous stop orders, which caused a pretty general

ous stop orders, which caused a pretty general disposition to unload.

At this point the excitement surpassed anything of the kind witnessed here since last fall. There was a Babel of noises, and the confusion was so great that a short rest had to be taken to restore order. The market hung around the opening price for a short time, when it rallied and sold up to 0½c—the highest point reached during the day—from which it sagged to 90%c, and finally to 88%c, amid great excitement and large offerings. From this point there was a recovery to 89%c, which were the final figures. The drop during the day was 1½c.

It was the opinion of some that only the apparent scarcity of oil prevented a still further decline. An operator, in giving his view of the outlook, said: "I think the market will sell around 8st to-morrow, and then rally 2c or 3c. The chances for a further slump, however, are very cood. The situation is so uncertain that I don't want anybody to handle oil on my judgment."

evening. Notwithstanding the long deferred acceptance of the chairmanship of the Inter-State Association by Mr. Walker, which had been looked for as the probable precursor of an upward movement in the stock market, together with the buying by London of St. Paul and some other shares, there was a marked indisposition to invest on the long side, while the bears were encouraged by the duliness to make another drive at values and they were aided by the bearish utterances attributed to Mr. Gould with the dissatisfaction over the schedule of prices adopted by the coal sales agents.

The uncertainty in regard to the dividend upon St. Paul preferred also was a factor in restricting purchases, and this was not removed until the last hour. The fluctuations in all except a few specialties, which were generally weak, were made within the narrowest limits, and although the efforts for a decline were persistent there was no long stock of importance brought out, and the net result of the day's transactions is small fractional declines only. been looked for as the probable precursor of an

The opening was dull but firm, and in some only.

The opening was dull but firm, and in some cases there was but some further slight improvement in the early trading, but the bears soon renewed their pressure upon the Grangers and Coal shares and considerable animation was developed in them with a decidedly weak tone, and declines reached nearly a point before the downward movement met with a check. Lackawanna, Missouri Pacific, Manhattan and Fullman were the weak spots, although Reading and St. Paulied in the amount of business done. The activity disappeared and Chattanooga became the feature by reason of the exceptional strength displayed, but untit well in the afternoon the market was intensely dull and staguant.

Another drive then sent St. Paul and Lackawanna down with Pullman, and the lowest prices of the day generally were reached in the neighborhood of 1 P. M. A better tone prevailed in the last hour and St. Paul preferred especially made a sharp rally and the close was quiet and firm at the figures. The great majority of the active shares are lower to-night, but losses for fractional amounts only, except in the case of Pullman, which is down 1% while Chattanooga rose l per cent.

The railroad bond market was oute dull to-

in the case of Pullman, which is down 1% while Chattanooga rose 1 per cent.

The railroad bond market was quite dull to-day, the sales of all issues aggregating only \$1,017,000, of which \$100,000 were in the Richmond and Allegheny second certificates. The tone of the dealings was generally firm, but the change in quotations at the close are quite irrigular and generally for small fractions. There was no special feature whatever. The important advances include Burlington, Cedar Rapids and Northern consol fives 3, to 83: New Orleans and Mobile seconds 3%, to 105, and Mobile and Ohio extension sixes 5, to 108.

—Louis White, generally known as "Curly Bill," the terror of the pine regions of Munnesota, was instantly killed yesterday by Charles E. Hayden. In the noon mail Hayden received a cabinet photograph of his wife and two children, and the loggers gathered about him to look at it. White attacked the woman's character, and a violent quarrel ensued, ending in a rough and tumble light, Hayden coming off the victor. After the fight White went to his room, and, returning with an aze, rushed at Hayden, who drew a revolver and shot the bully through the heart.

The Secretary of the Navy has under consideration numerous appeals from prominent citizens of this country to furnish a naval vessel to convey the remains of the late John Ericsson to his native land in recognition of his distinguished services in producing the Monitor, which rendered such valuable aid to the Government in a critical moment. On the other hand, a request has also been received at the departments that this be not done, on the ground that his native country failed to recognize his inventive genius, and that his adopted country should care for his remains.

Henry Bergh has been forced to resign the country should care for his remains.

-Henry Bergh has been forced to resign the presidency of the Society for the Prevention of Cruelty to Animals, which was founded by his uncle 23 years ago. His successor in the office is James M. Brown, the, well-known banker. The change was made at an executive session of the Board of Managers, 13 members being present. Mr. Bergh's resignation was accepted unanimously. Mr. Brown was elected without a dissenting vote. Trouble had been brewing for several months. Young Bergh was accused of being too domineering.

Drygoods Market.

New York, March 13.—Business at drygoods was at its height in the jobbing branch of trade, which, however, continues to lack the spirit of former seasons, buyers being very conservative in their operations. There is no speculative spirit shown, but the aggregate trade is more satisfactory in volume than in profits. Prints were selling with more freedom because of the Fall River strike. Trade with agents was fair on the average, though more quiet in staple goods than usual at this period. The market, however, continues in good shape as to stocks, and agents are for the most part firm. Drygoods Market.

I am satisfied that Cancer is nereditary in my family. My father died of it, a sister of my mother died of it, and my own sister died of it. My feelings may be imagined, then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inthat I was doomed to follow the others of the family. I took Swift's Specific, which, from the first day, forced out the poison and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured me.
